

SCAPE

SCAPE™

Taking inspiration from living elements of the natural landscape, an exploration of light, contrasts in form, subtle textures are created and embossed into natural materials of clay and sand to create vessels in ceramic and glass perfect for a robust food service environment.

Natural and muted colours of the earthy melamine reflect the growing desire to merge dining experiences from the indoors to the outdoors prepared in a material that is responsive to operational practicalities.

We live in an evolving landscape that is seeking out originality and authenticity. We strive for perfect functionality and masterful craftsmanship that evokes creativity and an experimental flare.

Scape explores a multi material approach to reflect our changing lifestyles and delivers truly innovative dining experiences. With the unique ability to transition through dining styles from laid back casual to fine formal and through into breakfast buffets and outdoor dining.

Scape provides a unique opportunity to experiment with texture, material and form to create unique ways of food presentation and achieve multi plating solutions from a minimal item range.

Curate the letters of the range name to reflect your perfect multi material solution:

- S** - Select your material
- C** - Create your plate setting
- A** - Admire your style
- P** - Plate your food
- E** - Enjoy the experience

Scape will adapt and blend to various interior design styles and allow your perfect selection to become an integral part of the customer experience through tactile innovative presentation.

The ceramic components are available in pure white and cool grey to provide both a casual and luxurious feel. Interplay with clear and smoked glass adding a further dimension and finally finish with a flurry of muted melamine tones served on warm wooden hues to complete the look.

Michelin Star Chef Simon Hulstone prepares food to showcase the versatility of the offer and is excited about the launch.

“ Steelite have really come up trumps again with Scape, as with continuing trends in food changing all the time Steelite have matched chefs expectations and produced a range that will lead the way and be seen in the worlds best kitchens. ”

Scape is so versatile for the chef it can be showcased from high end establishments to al fresco pool parties.
